

May 30, 2015 - 4 Seasons Recreational Club Monthly Meeting

Secretary's Report – Correction that Jon did not order the lime and fertilizer for the ball field. Minutes were approved on a Loren/Mike motion.

Treasurer's Report was approved as read on a Deb/Jean motion.

Old Business

- Bill has been grooming regularly with the new drag and reports that trails are in good condition. He has received several positive comments about trail conditions since he has been using the drag. It cuts grooming time and does a better job. A Bill/Jon motion passed to purchase the drag for up to \$15,000. A Mike/Jon motion passed to use \$5,000 from the Maintenance and Repair account, and the balance from the general fund.
- Jon reported that Haakinsons have not been available to do the trail reroute. He will follow up with them again.
- The club had a table at the Flea Market on Memorial Day weekend to promote membership and provide information about the club. We sold club clothing, raffle tickets and about 100 hot dogs in addition to passing out membership cards and educating people about the new Cap Step program.
- Thank you to Kay, Marlene and Doris for painting the picnic tables at the park.
- Youth turkey hunt was on 5/16. They used our building and we donated pizzas for one of their meals. They only saw 1 bird because it was too late in the season, but they had a good time and were thankful for the use of our building.
- Chuck asked about reroofing the biffy and the pavilion. Jon felt it should be part of the town budget as we have done a 50/50 cost share with the town in the past for similar projects.
- Mark negotiated the final prices for the shed. An 8x10 shed with a 4 ft door is \$1845 delivered and the county requires a building permit at a cost of \$80. We need to remove the old shed and prep the site before calling for delivery. Jon will be in Duluth and will get the building permit.
- The ball park needs to be tilled and lime and fertilizer applied. A work day is scheduled for Friday, June 5.
- Road clean up is today after the meeting. Mike is concerned with road safety and the threat of tics. If we continue to participate in the program, he suggested researching a different road route that is closer and not as high traffic.
- Club members presented their ideas for a club logo. They will be modified based on suggestions and presented at the next meeting for a vote.

New Business

- Meat Raffle volunteers for 6/6 and 6/20. No was present is available, so I will email our members.
- Food & Fun – Posters have been ordered and should be here next week. I received suggestions after last years event that we may want to consider serving pork in addition to beef. I will get prices from Dan for both pork and beef cooked. Mark has reserved the children's rides. We need to start collecting door prizes and raffle board prizes.

Meeting Adjourned on a Jon/Loren motion.

Respectfully submitted,

Doris Youngquist, Secretary
